Biography

Assoc. Prof. Marián Várady, DVM., DSc. is a senior researcher at the Institute of Parasitology of SAS. He graduated at the University of Veterinary Medicine in Košice, from general veterinary medicine. He has been involved in the study of anthelmintic resistance since 1990. In the years 1994 -1997 he participated in several study visits (total 2.5 years) in Denmark, where he worked at the Veterinary and Agricultural University in Copenhagen at the Department of Parasitology and participated in the implementation of grant projects of the Danish Academy of Science.

Dr. Várady is a Head the Department of Experimental Pharmacology and the results of his investigations are internationally recognized both in basic and applied research, as evidenced by the cooperation with research institutions at home and abroad. Within the international cooperation he was involved in a two (TRICHIPORSE and ECHINORISK) international European projects within the 5th Framework Programme, and from 2006-2009 he was a principal investigator in the FP6 PARASOL. In the years 2001-2005 he worked as the principal investigator of the international program COST B16. In the years 2000-2006 and 2014-2018 he was the principal investigator of the project COST FA0185 and COST-CYSTINET TD1302, respectively. Currently he is participating in COST-COMBAR project. Under the leadership of Dr. Várady initial studies were performed in Central Europe, dealing with the occurrence and detection of resistance of gastrointestinal nematodes in livestock and produce new knowledge for solving this problem in livestock where resistance has already occurred, but also to prevent further spread of this serious phenomenon. He actively participated in many national and international conferences. He supervised 6 PhD students and 7 diploma students of the University of Veterinary Medicine and Pharmacy Kosice.

Dr. Várady`s publication records:

88 scientific publications (WoS database)

1123 citations

H=20.

In April 2019, he will lecture courses on Clinical Parasitology at the Poznan University of Life Sciences (PULS).
