### Special issue announcement.

#### Biocontrol using beneficial fungi and bacteria

Editors: Dr Sabrina Sarrocco  
Dr Juan Palazzini

This Special Issue will bring together reviews, research papers on fundamental and applied aspects of biocontrol.

Submission deadline 30 January 2023

Eco-friendly plant pathogen control methods are promising alternatives to synthetic pesticides. With many countries moving towards more eco-friendly agriculture, biocontrol is becoming a key topic in plant pathology research.

This Special Issue will bring together a collection of reviews and research papers on fundamental and applied aspects of biocontrol by beneficial fungi and bacteria. The special issue will start with a series of invited reviews, followed by research papers.

Currently commissioned reviews: Biocontrol by beneficial fungi and bacteria, an overview (Dr. Adriana Torres), Mycoparasitism (Prof. Irina Druzhinina), Competition (Dr. Sabrina Sarrocco), Plant mediated anti-fungal action (Prof. David Collinge), Suppression of soil-borne pathogens by saprotrophic fungi (Prof. Christel Baum), biocontrol strategies for FHB (Dr Juan Palazzini), Control of root-knot nematodes with fungi and bacteria (Prof. Ioannis Giannakou), endophyte control of clubroot' (Prof. Jutta Ludwig-Mueller), Biocontrol and mycotoxins in cereals (Prof. Sofía Chulze), biocontrol with Actinomyces (Dr Carol Verheecke-Vaessen).

#### **Manuscript Submission Information**

If thinking of submitting a review:

Please contact [Frank.vandenbosch@curtin.edu.au](mailto:Frank.vandenbosch@curtin.edu.au)

Reviews are by invitation only.

If thinking of submitting a research paper:

Research papers may be submitted without notifying us. However, we welcome a note with a preliminary title. Send to [Frank.vandenbosch@curtin.edu.au](mailto:Frank.vandenbosch@curtin.edu.au)

Manuscripts should be submitted online at <https://www.editorialmanager.com/EJPP>. Select 'yes' when asked 'does this manuscript belong to a special issue?'. Then select the special issue title.

All submissions will be pre-checked for suitability of the topic (see instructions for authors).

All manuscripts that pass the pre-check will be thoroughly reviewed through a single-blind peer-review process.

Please visit the [Instructions for Authors](#) on the EJPP website before submitting a manuscript.

**Looking forward to receiving your manuscript.**
